

Proposed Quarry at Land West of Roughetts Road

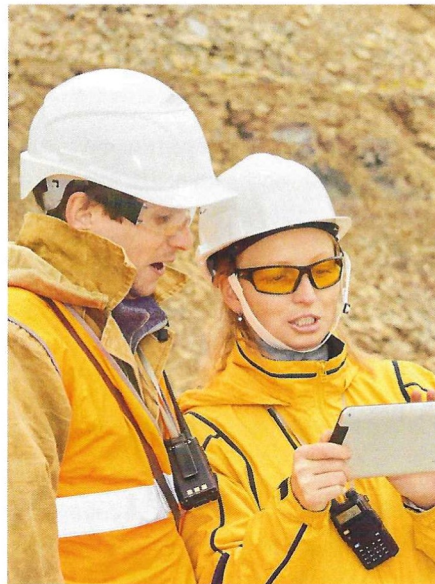

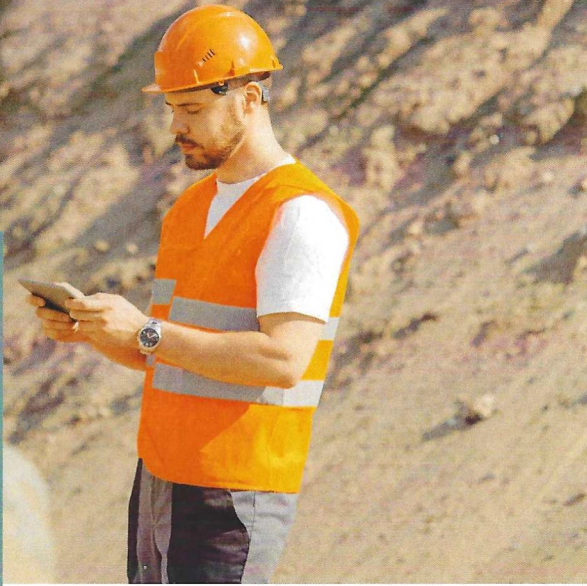

Dear Resident,

We wanted to let you know about a proposal for a quarry to the west of Roughetts Road. The landowner, Bowyers Field Developments Limited, intend to submit a planning application for the site and we are keen to receive your feedback.

We launched a consultation website in August 2023 and have now updated the website with more information in relation to design, the restoration process and the mitigation that will take place during the life of the quarry.

As you may be aware, a larger site was promoted previously as part of the development of the Kent Minerals and Waste Local Plan. We have since reduced the size of the quarry.

Quarrying provides the construction industry with minerals to aid in the building and repair of homes, roads, and buildings.

You can discover more, including facts and figures, by visiting our website at www.landwestofroughettsroad.co.uk

We will be updating the website regularly, and there is an online feedback form where we invite questions from the community.

All questions received will be addressed by the team before the submission of the planning application, and relevant updates will be made to the website

Please provide your feedback before Friday 10th May 2024.

The feedback received from the community will be recorded and submitted as part of a planning application for the site.

If you would prefer a paper copy of the information, please do let us know and we would be happy to post this out to you. You can get in touch with the team at consultation@landwestofroughettsroad.co.uk
